Insights(blog) POST: PC

Dashboard

Wix Owner App

1. Go to your site's [dashboard](#)
2. Click on the **Blog** tab on the left.
3. Click **Create New Post** or click an existing post to edit it.

The screenshot shows the Wix dashboard interface. On the left is a dark sidebar menu with options: 'Set Up Your Site' (5 steps left), '< Main Menu', 'Posts', 'Published', 'Drafts', 'Scheduled', 'Trash', 'Manage', and 'Categories'. The main content area is titled 'Published 9' and features a 'More Actions' dropdown and a 'Create New Post' button. Below this is a list of three published posts, each with a checkbox, a thumbnail image, a title, a date, and a three-dot menu icon:

Checkbox	Thumbnail	Title	Date	More
<input type="checkbox"/>		Yoga and Pregnancy	Mar 8	⋮
<input type="checkbox"/>		Benefits of Daily Meditation	Mar 8	⋮
<input type="checkbox"/>		10 Beginner Yoga Poses Anyone can do	Sep 24, 2020	⋮

Add a title to enable auto-save

You should always add a title to your post before you write the rest of your post. Adding a title makes sure that your post is auto-saved. If you don't add a title, your post won't auto-save and you may lose work if you leave the post without manually saving.

Dashboard

Wix Owner App

You can create a new post or edit an existing post directly from the Wix Owner app . Only people with [writing permissions](#) can see the **Create a Post** button.

1. Open the Wix Owner app.
2. Tap the dropdown at the top to choose the relevant site.
3. Tap the **Manage** icon  .
4. Tap **Content & Community**.
5. Tap **Blog**.
6. Tap **Posts**.
7. Tap **Create New Post** or tap a post to edit it.
8. Write or edit your blog post and tap **Next**.
9. Choose what you want to do by tapping the relevant option:
 - **Save as Draft:** You can continue working on your post at a later time.
 - **Post Settings:**
 - i. Edit your post settings and tap **Save**.
 - ii. Choose to either save your changes or schedule your post.

Tip:

Tap the Undo icon  in the bottom bar to undo a change you made to your post. Tap the Redo icon  if you want to restore a change again.
